

AXIS 4000

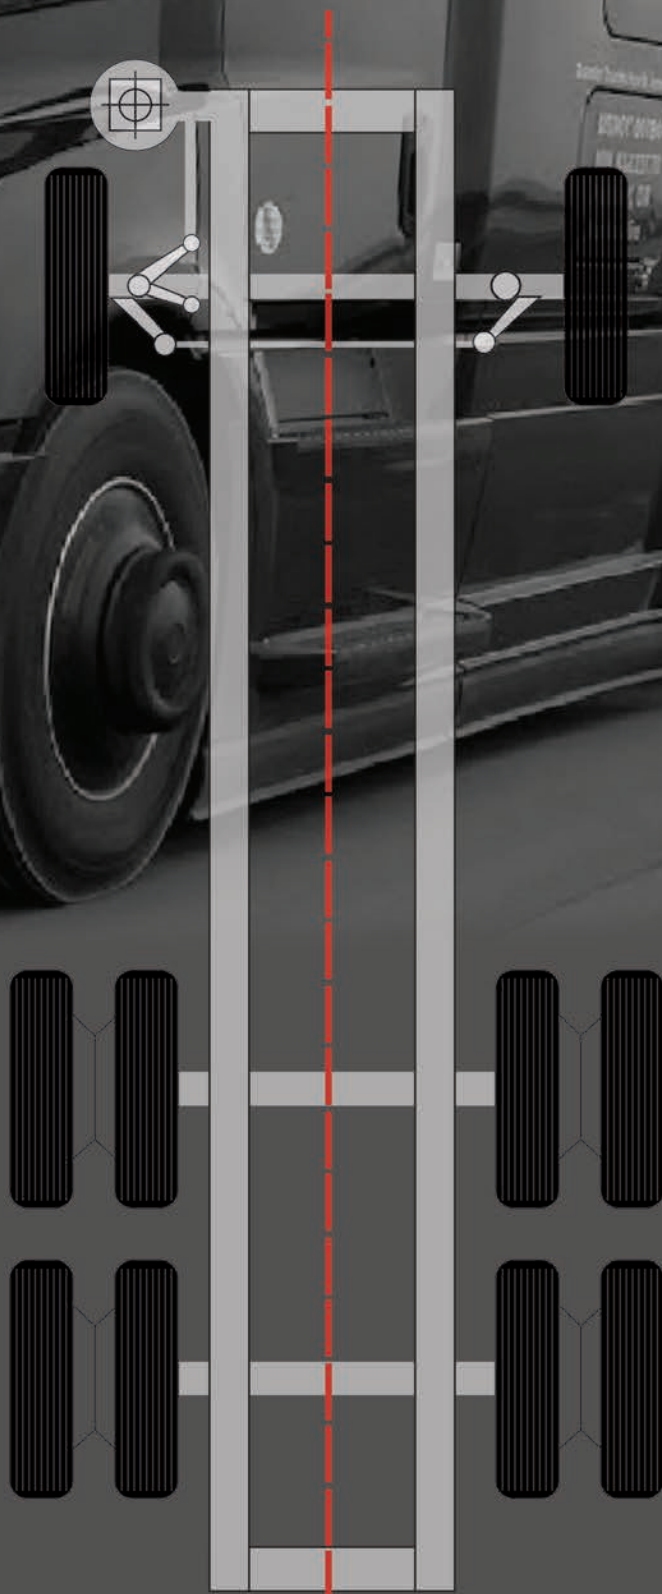

Electronic Wheel Alignment

Camera Radio System

PRECISE. REPEATABLE. EFFICIENT.

The Anywhere, Anytime HD Alignment System™

- Center line of frame reference point per OEM
- Dual-image, camera-based technology
- Pre-calibrated, easy on-easy off magnetic clamps
- Floating turntables for complete turn angle measurements
- MSA tested, passed and approved by DTNA
- Measurements taken in the driving condition
- No lifting, no rolling, no run-out compensation steps required
- Does not require a pit, a rack or level floors
